Maximum Marks	2 Marks

Customer Journey Map

Map out the customer's experience stage-by-stage, capturing their actions, touchpoints, thoughts, and feelings, along with process ownership and improvement opportunities at each stage.

Phase of Journey	**Stage 1** **Explore & Discover**	**Stage 2** **Analyze & Compare**	**Stage 3** **Decide & Act**
Actions *What does the customer do?*	• Opens the EV market dashboard • Reviews KPI cards: sales, price, range, CO2 • Scans sales by category	• Filters by vehicle category • Compares manufacturers and battery tech • Checks range and CO2 saved	• Summarizes key insights • Shortlists growth segments and battery tech • Shares or exports the views
Touchpoint *What part of the service do they interact with?*	• Dashboard 1: KPI tiles (sales, price, range, CO2 saved) • Sales trend over time by vehicle category • EV production output by country and category	• Top manufacturers by customer review vs sales units • Battery tech performance and range box plot • Charging vs efficiency scatter plot	• Regional environmental impact and CO2 saved chart • Retained value (3-year) by category • Tableau dashboard share / export options
Customer Thought *What is the customer thinking?*	• "What is the overall state of the EV market?" • "Which vehicle categories sell the most?" • "Can I trust and quickly read this data?"	• "Which manufacturers and battery types lead?" • "How do range and charging compare?" • "Which brands do customers rate best?"	• "Which segments should we invest in next?" • "Do the CO2 savings support our strategy?" • "Can I explain this clearly to others?"
Customer Feeling *What is the customer feeling?*	Curious but slightly overwhelmed by the amount of market data across categories, countries and years.	Engaged and focused. Interactive filters and linked charts make comparison feel easy and insightful.	Confident and satisfied, with clear evidence to support strategy, product and policy decisions.

Process Ownership *Who is in the lead on this?*	BI / data team keeps the data current; Strategy Director and analysts review KPIs.	BI Manager and Research Analyst lead the comparison and technology analysis.	Market Strategy Director leads decisions; BI team supports with reports.
Opportunities *How can we improve this stage?*	• Add short KPI descriptions in tooltips • Add year and region filters • Highlight top categories automatically	• Add a manufacturer search / compare mode • Add benchmark lines for range and charging • Link charts so one click filters all views	• Add an export-to-PDF executive summary • Add forecasts for growth segments • Add annotated key takeaways
